A large, stylized graphic of a film reel. The reel is circular with a central hub and two large, curved arms. The text "TV FILM CLIP LIBRARY" is overlaid on the reel in a bold, stylized, sans-serif font. The letters are thick and have a slight 3D effect. The background of the reel is filled with concentric lines representing the film strip.

TV FILM CLIP LIBRARY

Volume III  
April 1955

The Motion Picture Service of the U. S. Department of Agriculture offers a stock scene library service to land-grant colleges and other organizations and individuals interested in using agricultural motion picture footage in the production of films and television programs. Lists of stock scenes available will be published as material is added to the library.

It is suggested that these lists be kept in a ready reference file. The scenes are grouped under the title of the USDA subject for which they were photographed. Further cataloging or cross-indexing will be at the discretion of the user. Scenes should be ordered by scene numbers and descriptions, and in the length indicated. Double-perforated film stock will be furnished by the Motion Picture Service unless otherwise specified.

This volume also lists and describes scenes contained in certain edited film packages. Only black-and-white prints of these film packages, not individual scenes contained therein, are available for purchase at a reduced rate. These packages should be ordered by the production number and title or general description and in the total length indicated. Composite sound prints will be furnished if the package is a

sound film. Prints of silent packages will be furnished on double-perforated stock unless otherwise specified.

A check or money order made out to the "Office of Information, USDA" must accompany each order. Formal purchase orders will be accepted from Federal and State Government agencies. Orders should be submitted in duplicate and will usually be processed within a maximum of 10 working days.

The following price schedule will be in effect until further notice. These prices are based on costs of printing, processing, packaging, and mailing:

Scenes:

16mm black-and-white prints ..... \$ 0.10 per ft.

16mm black-and-white duplicating negative .. 0.25 per ft. .

16mm color prints (made from original) ..... 0.25 per ft.

Film packages (sound or silent):

16mm black-and-white prints ..... \$ 0.05 per ft.

MINIMUM ORDER ..... \$ 5.00

If you have not already received Volumes I and II of the TV Film Clip Library, copies may be obtained by writing to the Motion Picture Service, U. S. Department of Agriculture, Washington 25, D. C.
